Could you be a **business mentor?**

Lived through the highs and lows of running a business? Got experience, knowledge and wisdom that you can share with your peers? Made a real difference in your business?

If so, why not join our innovative and exciting Mentoring Programme and give something back to your local business community?

Funded by

Tell me more...

The Mentoring Programme gives leaders and senior managers of small businesses a great opportunity to learn from experienced, senior managers like yourself.

We'll match you to another business leader or manager and you'll meet on a one-to-one basis in an informal setting away from their workplace. You will listen, challenge and offer insight, knowledge and above all your experience to inspire leaders and managers to develop their ability and potential.

How many people and how much time?

As many people or as much as your time allows. Relationships will vary in length depending on the needs of the people you support. A relationship may last up to 12 months and you may meet a person for a couple of hours each month.

Interested?

The Mentoring Programme will deliver mentoring throughout the Northwest using a network of providers. To register to become a mentor or find out more, visit:

or call 0845 00 66 888**

How will the Mentoring Programme support me?

Quality runs throughout the Mentoring Programme. You will join a programme that is quality accredited by the International Standards for Mentoring Programmes in Employment (ISMPE).

You will receive an induction and expert guidance to help you fully understand the mentoring process and the skills required to mentor effectively. We will support you to continue to develop your mentoring skills with a programme of ongoing training and networking events.

Mentoring is voluntary; however, we will reimburse any out of pocket expenditure such as travelling expenses to cover your costs.
